

2021 OutsideIN MS SUMMER of DISCOVERY Camps

Little Masters

Monday, June 14 **ages 6-8**
Young kids will look at some of the works of the Great Masters of art to learn their basic styles and techniques. Dress for the mess!

Junior Naturalist

Tuesday, June 15 **ages 9-12**
Older students will learn observation techniques, sketching, and identification of plants and animals. They will also make leaf and fish prints, start a nature journal and dissect owl pellets!

Art for Small Hands

Wednesday, June 16 **ages 6-8**
Little ones will enjoy this hand-on class that explores many different forms of art—clay play, watercolor, painting, mosaics, and more! Dress for the mess.

Feathered Friends

Monday, June 21 **ages 6-8**
What makes a bird different from other creatures? How do their adaptations help them to survive? Take a closer look at our feathered friends, the original Tweeters.

What Remains Behind

Tuesday, June 22 **ages 9-12**
After animals have passed by, they leave traces of themselves—tracks, skins, and bones. In this class, students will learn to identify bones, put together a skeleton, and make a plaster animal track cast.

Slimy or Scaly?

Wednesday, June 23 **ages 6-8**
How are reptiles and amphibians different? Younger students will learn the facts with games, art activities, and even a live snake!

Slimy or Scaly for Big Kids

Thursday, June 24, **ages 9-12**
Same topic, but for older kids.

Opossums Are Awesome!

Monday, June 28 **ages 6-8**
Opossums are North America's only marsupial, and that makes them special! From prehensile tails to "playing possum," younger students will learn what makes these ancient animals such unique critters.

Crime Scene

Friday, June 29 **ages 9-12**
During this forensic science class, students will learn how experts work crime scenes, including looking at fingerprints, dental patterns, and other techniques.

SH-SH-SH-SHARK!

Wednesday, June 30 **ages 6-8**
In this not-too-scary class, younger kids will learn about the mysterious and often misunderstood world of ocean predators.

Crawling Critters

Monday, July 12 **ages 6-8**
What lives under logs and in the wildflowers? Bugs, of course! Kids will learn to identify some bugs, play games, & make a butterfly life cycle.

Dinosaur Country

Monday, July 19 **ages 6-8**
Full speed ahead into Dinosaur Country, in this look at everyone's favorite extinct creatures. The simulated dino dig is always a high point for this popular class.

Owl Be Seeing You

Wednesday, July 21 **ages 6-8**
Who, who, who are you? Did you know that an owl's eyes are fixed in its eye sockets? Learn more and other fascinating owl facts.

Build It!

Thursday, July 22 **ages 9-12**
Older kids will learn fundamentals of architecture and design, and will compete in several building block challenges. How high can they build a tower before it all comes toppling down?

Nature Crafts

Monday, July 26 **ages 6-8**
This entertaining class for the young ones focuses on making projects out of common outdoor materials, or things with a natural history theme.

Oh, Yuck!

Tuesday, July 27 **ages 9-12**
To put it bluntly, this is a class about gross stuff--slugs, maggots, yucky smells, scabs, and other things kids love! Lots of hands-on activities to go with this unusual class.

Going Batty

Wednesday, July 28 **ages 6-8**
What's the only mammal that can truly fly? A bat! Do they fly in your hair? No! Do they suck your blood? Sometimes! Learn more about these unusual little critters in this fun class.

\$25 per camp

All camps run from 2:30-5:00 PM

Registration fee of \$25 per child, per class, is due at registration. Cancellations must be received 72 hours ahead of the class for a refund.

PAYMENT METHODS:

Please contact Robin Person for registration and payment

Cash (no checks)

2021 OutsideIN MS SUMMER of DISCOVERY

Join us at OutsideIN MS this summer as we explore, play, and create at our inaugural SUMMER of DISCOVERY Camps. With programs focusing on everything from art and architecture to the natural world, our SUMMER of DISCOVERY Camps provide an exciting range of activities.

Camps are tailored to a specific age range so that children can explore new skills on their level. Younger kids will look at the wondrous world of snakes and bugs, and learn the basics of art and art history. Older kids are invited to become junior naturalists, architects, or scientists while studying forensics, bones, footprints, and even a little "gross-ology!"

All classes are \$25, run from 2:30-5:00 PM, and take place at OutsideIN MS, 112 N. Commerce St., in downtown Natchez. Snacks and drinks are provided during each 2 ½ hour camp.
